Dear Steve,

We thank you for your enquiry with regards to chartering Mirrors for the Nationals & Worlds in 2017.

The Boat we would supply would be our Championship Spec Boat which comes fully rigged with a one piece Super Spar Mast, Pole and Boom with outhaul cleat for the crew, and Winder foils.

The fit out comprises of 8:1 Kicker and Cunningham lead to the thwart, Centre Main Sheet lead to a Allen auto ratchet.

We would need to know whether you would be requiring a pole launcher, so that this could be fitted before it leaves the workshop.

Fee:-

Option 1. £1000 without sails fully insured

Or

Option 2. £1100 with a Full Suit of Racing sails fully insured

If the boat or boats need to be delivered to The Sailing Club there will be an extra delivery cost to cover fuel and our time, if this is spread over a number of boats it obviously makes it cheaper than for one boat.

We would hope that if we could build 3 boats and sell them to potential customers before the event, we may be willing to build more. But we wouldn't make more than 3 unless we knew we had a buyer for them after the event.

In addition we would require a £100 deposit, that is refundable based on there being no significant damage to the boat (this covers the excess on the insurance policy)

The Chartering Fee must be paid for in full before use of the boat.

Regards

David Winder
